Daily stories

EC

TIO

Connubia designs furniture that brings people together — furniture that weaves bonds between lives and personal journeys, shaping the spaces where life quietly unfolds. Tables that set the scene for new encounters. Chairs that cradle secrets, holding words unspoken elsewhere. Rooms brimming with emotion. Authentic, effortlessly natural collections, ready to be part of your everyday life. Trusted companions that transform four walls into a place you can truly call home.

NS We design products that build connections — your Daily stories.

Progettiamo prodotti che creano legami — le tue Daily stories.

Connubia disegna arredi che creano connessioni. Legami che uniscono persone e storie, dando forma agli spazi dove la vita accade. Tavoli che diventano teatro di nuovi incontri. Sedie che diventano complici di parole mai dette altrove. Stanze ricche di emozioni. Collezioni autentiche e spontanee, pronte a vivere con voi, ogni giorno. Compagni di vita che trasformano gli spazi in luoghi da chiamare casa.

Here are your homes. Lived-in spaces full of objects, movements, and life. These are spaces where people eat and work that also become places for reading and meeting. They are filled with the laughter of friends, family lunches, and the big and small stories of daily life.

Connubia's photographic mood is the result of all this: real environments that truly reflect your personality. We have embraced your lifestyle, choosing not to change anything and leaving the personality of each room intact, because that is where our furniture comes into its own. In real homes. Your homes.

CO ——— NN

Abbracciamo la bellezza della vita vera — le tue Daily stories.

Ecco a voi le vostre case. Spazi vissuti ogni giorno, pieni di oggetti, di gesti, di vita. Spazi dove si mangia e si lavora, ambienti che diventano luoghi di lettura e di incontro, dove trovano posto le risate con gli amici, i pranzi in famiglia, le grandi e piccole storie quotidiane.

Il mood fotografico di Connubia nasce da tutto questo: ambienti autentici che raccontano chi siete davvero. Abbiamo fatto nostro il vostro modo di abitare, scegliendo di non modificare nulla, di lasciare intatta la personalità di ogni stanza, perché è lì che i nostri arredi trovano la loro dimensione.

In case vere. Le vostre.

We embrace the beauty
of real life — your Daily stories.

SCIO — US

Connubia addresses the issue of sustainability with commitment and a long-term vision. With the I am Green project, we have chosen to organise all activities related to this commitment in a tangible way, acting on two complementary fronts. Firstly, there is the product: furniture made from natural and recycled materials that has been designed with the circular economy in mind. Secondly, there is our entire corporate system, which is geared towards more responsible development, from production to distribution.

We contribute to building a sustainable future — your Daily stories.

Contribuiamo a costruire un futuro sostenibile — le tue Daily stories.
Connubia affronta il tema della sostenibilità con impegno e visione a lungo termine. Con il programma I am Green abbiamo scelto di strutturare in modo concreto tutte le attività legate a questo impegno, agendo su due fronti complementari: da un lato il prodotto, con arredi realizzati in materiali naturali e riciclati, progettati con una visione circolare; dall'altro l'intero sistema aziendale, orientato a uno sviluppo più responsabile, dalla produzione alla distribuzione.

Connubia is a brand of the Italian company Orbital Design Collective, which designs and creates products with an essential and highly personal aesthetic. Our design approach combines aesthetic intuition with functionality. We believe that design is a language of signs, shapes and colours that can transform into daily narratives. Through the objects they create, our designers express their vision, reveal intuitions and give substance to their imagination. Our expertise is rooted in a profoundly Italian aesthetic sensibility, characterised by a keen attention to detail, a thoughtful approach to movements, and an ability to translate real needs into contemporary, welcoming designs that are made to become part of people's homes.

Diamo forma alle idee trasformandole in oggetti che lasciano il segno — le tue Daily stories. Connubia è un brand di Orbital Design Collective, una realtà italiana che progetta e dà vita a prodotti dal design essenziale e fortemente personale. Il nostro approccio progettuale unisce l'intuizione estetica alla funzionalità. Per noi il design è un linguaggio fatto di segni, forme e colori capaci di trasformarsi in narrazioni quotidiane. Attraverso gli oggetti i nostri designer esprimono visione, rivelano intuizioni e danno concretezza al proprio immaginario. Il nostro saper fare è alimentato da una sensibilità profondamente italiana, che vive nella cura del gesto, nell'attenzione ai dettagli e nella capacità di leggere i bisogni reali per trasformarli in oggetti contemporanei e accoglienti, fatti per entrare nelle case e per restare.

PT

We shape ideas into meaningful objects — your Daily stories.

We perfect processes and materials
to create products that are built to last —
your Daily stories.

CO — NN

We are the manufacturers and custodians of a century-old tradition of working with materials and transforming them into designs that will last the test of time.

This experience has been passed down and continuously updated to create a production system that reflects our very high standards. We know that quality begins with the materials used, which is why we select them using rigorous criteria and test them to ensure they are strong, safe and perform well.

We obtain certifications that meet the most exacting standards. Supply chain control is an integral part of our approach: we oversee every stage of the process to ensure reliability and efficiency. This concrete approach results in design products that tell a story of excellence, innovation and a love for our craft.

CRE ——— TE

Affiniamo processi e materiali per dare vita a prodotti destinati a durare — le tue Daily stories. Siamo produttori, custodi di una tradizione che da oltre un secolo lavora la materia trasformandola in oggetti di design capaci di durare nel tempo. Questa esperienza, tramandata e continuamente aggiornata, si traduce in un sistema di produzione che rispecchia altissimi standard. Sappiamo che la qualità nasce prima di tutto dai materiali: per questo li selezioniamo con criteri rigorosi e li sottoponiamo a test che ne verificano resistenza, sicurezza e performance, ottenendo certificazioni ai più alti standard. Il controllo delle filiere è parte integrante del nostro metodo: tracciamo ogni passaggio per garantire affidabilità ed efficienza in ogni fase del processo. È da questo approccio concreto che prendono forma prodotti di design capaci di raccontare una storia fatta di eccellenza, innovazione e amore per il nostro mestiere.

All our materials comply with the strictest quality standards. For your pleasure, we have sourced fabrics which are not only delightfully tactile and stain-resistant, but ones which hold their colour over time. Our ceramic tops are exceptionally hard-wearing, easy to clean and utterly hygienic. Our wood is protected with special varnishing processes which create an effective barrier against staining. In addition, Calligaris S.p.a. is FSC certified, meaning that it only uses wood that comes from well-managed forests in compliance with strict environmental, social and economic standards.

Connubia — collection finishes

Tutti i materiali che utilizziamo rispettano severi standard qualitativi. I tessuti che abbiamo selezionato per voi sono piacevoli al tatto, resistono alle macchie e mantengono inalterati i colori anche dopo molto tempo. I nostri piani in ceramica hanno eccezionali caratteristiche di resistenza, sono facili da pulire e assolutamente igienici. Il legno che utilizziamo viene protetto con speciali cicli di verniciatura che offrono un'efficace barriera contro le macchie.

Calligaris S.p.a. è inoltre certificata FSC, il marchio che identifica i prodotti contenenti legno proveniente da foreste gestite in maniera corretta e responsabile secondo rigorosi standard ambientali, sociali ed economici.

P16E noce

On the Giove model CB4739-D 120 and CB4739-E 140, in melamine finishes P15E patagonia brown and P3BW arabescato, the pattern of the half-tops is not continuous.
Sul modello Giove CB4739-D 120 e CB4739-E 140 nelle finiture in nobilitato P15E patagonia brown e P3BW arabescato il decoro dei semipiani non ha continuità.

On the Frac model CB4875-D 125, in the ceramic finish P33C noir désir, the pattern of the half-tops is not continuous.
Sul modello Frac CB4875-D 125 nella finitura in ceramica P33C noir désir il decoro dei semipiani non ha continuità.

Finishing materials

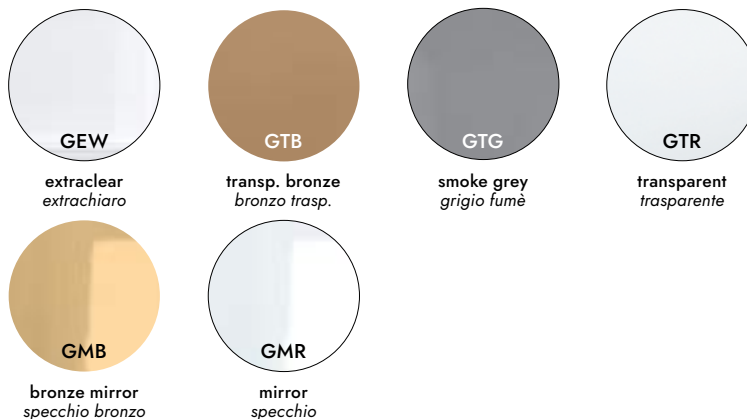

Metals *Metalli*

Matt finishes *Finiture opache*

Glass / Mirror *Vetri / Specchi*

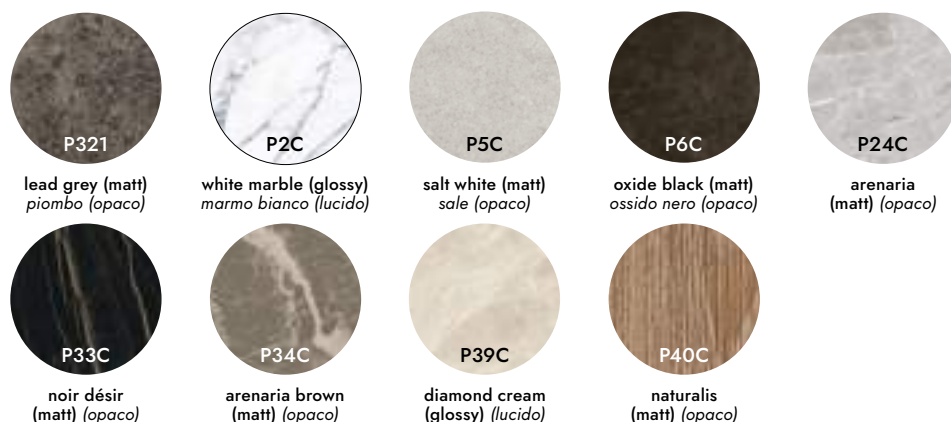

Ceramic Ceramica

Laminated ceramic-glass *Accoppiato ceramica-vetro*

The ceramic-glass top is a self-holding product manufactured by coupling one ceramic plate (porcelain tile) to a floating glass thanks to a special process carried out in autoclave. The ceramic plate thickness is 3 mm and is coupled with an 8 mm thick glass (for a total of 11 mm). For the P2C finish, the ceramic plate thickness is 6 mm and is coupled with a 6 mm thick glass (for a total of 12 mm). The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C. The porcelain tile working surface features exceptional performances in terms of scratch, impact, stain, thermal shock and chemical resistance. It is easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances. *Il top ceramica-vetro è un prodotto autoportante ottenuto accoppiando, con uno speciale procedimento in autoclave, una lastra di ceramica (gres porcellanato) ad un vetro float. Lo spessore della lastra di ceramica è di 3 mm, ed è accoppiata con un vetro di spessore 8 mm (totale 11 mm). Per la finitura P2C lo spessore della lastra di ceramica è di 6 mm, accoppiata con un vetro di spessore 6 mm (totale 12 mm). Il gres porcellanato è un materiale ceramico ottenuto da materie prime di speciale pregio e purezza, macinate e colorate nell'impasto, compattate ad altissima pressione e cotte alla temperatura di 1200 °C. Il piano di lavoro in gres porcellanato offre caratteristiche eccezionali in termini di resistenza ai graffi, agli urti, alle macchie, agli sbalzi termici ed ai prodotti chimici. È facile da pulire ed assolutamente igienico in quanto non assorbe liquidi e non rilascia sostanze nocive.*

Laminated ceramic-wood *Accoppiato ceramica-legno*

The ceramic-wood top is obtained by applying a layer of ceramic (gres porcelain tile) onto a panel made of wooden particles with a special gluing technique. The porcelain tile is a ceramic material obtained using a mixture of stoneware composed by clay and valuable raw materials, which are mixed, body tinted, compacted whilst high pressure is applied and finally fired at 1200 °C. The porcelain tile working surface features exceptional performances in terms of deep abrasion, stain, thermal shock and chemical resistance. It is easy to clean and very hygienic because it does not absorb liquids and does not release harmful substances. *L'accoppiato ceramica-legno è un prodotto ottenuto applicando una lastra di ceramica (gres porcellanato) ad un pannello di particelle di legno con una speciale tecnica di incollaggio. Il gres porcellanato è un materiale ceramico ottenuto da materie prime di speciale pregio e purezza, macinate e colorate nell'impasto, compattate ad altissima pressione e cotte alla temperatura 1200 °C. Il piano di lavoro in gres porcellanato offre caratteristiche eccezionali in termini di resistenza ai graffi, agli urti, alle macchie, agli sbalzi termici ed ai prodotti chimici. È facile da pulire ed assolutamente igienico in quanto non assorbe liquidi e non rilascia sostanze nocive.*

Wood types

Legni

Solid wood *Legno massello*

Obtained by cutting the tree log through a mechanic process. The aesthetic features and grain pattern depend on the wood essence. Solid wood is usually varnished (finishing process) and reproduces the typical essence shades. È ottenuto direttamente dal tronco dell'albero mediante lavorazioni meccaniche. Le particolarità estetiche e di venatura sono caratteristiche dell'essenza legnosa utilizzata. Il legno massello viene finito nelle tonalità tipiche delle varie essenze con una lavorazione di verniciatura (la finitura).

Veneers *Impiallaccature*

Veneer is obtained by using thin sheets of wood with different thicknesses which are taken from the best quality tree logs. Veneer layers are usually glued to a support and then stained accordingly. Veneer increases the quality of the products and delivers an excellent aesthetic result. Si realizzano utilizzando fogli di legno nobile di spessore variabile ricavati direttamente dai tronchi di migliore qualità. Questi vengono poi incollati su vari supporti e finiti nella tonalità di tinta desiderata. Conferiscono grande qualità ai prodotti ed un eccellente risultato estetico.

Laminated finishes *Laminati*

Obtained by pressure gluing various layers of fibrous material soaked in thermosetting resins and spread on the visible layer (plain coloured or patterned) with melamine resins. They are then glued on a wooden grain panel (support). Laminated panels allow a great variety of aesthetic solutions and have excellent stability, resistance to wear and tear, collisions, abrasion and humidity. Sono rivestimenti prefiniti ottenuti incollando a pressione più strati di materiale fibroso impregnato con resine termoindurenti e spalmato sullo strato decorativo (unicolore o stampato) con resine melaminiche. Vengono quindi incollati su un pannello di particelle di legno (supporto). Garantiscono una grande varietà di soluzioni estetiche e ottime caratteristiche di stabilità, resistenza all'usura, agli urti, all'abrasione e all'umidità.

Multilayer laminate tops (hpl) *Laminati stratificati hpl*

This multilayer laminate is a 10 mm thick, self-supporting material formed with different layers of fibrous material absorbed with thermosetting resins and pressed together under high pressure. The external surface of the panel is a decorative laminate made with a base of thermosetting resins. Il laminato stratificato utilizzato è un materiale autoportante di spessore 10mm costituito da più strati di materiale fibroso impregnati con resine termoindurenti e pressati tra loro ad alta pressione. La superficie esterna del pannello è realizzata in laminato decorativo a base di resine termoindurenti.

Melamine finishes (thermal structured surfaces) *Nobilitati (superfici termo-strutturate)*

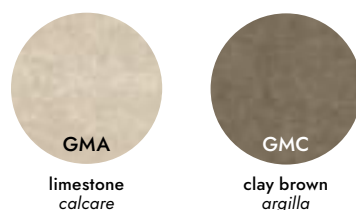

Obtained by gluing plain coloured or patterned sheets which are spread on the visible layer with melamine resins on a wooden grain panel (support). Melamine coated panels allow a great variety of aesthetic solutions, they are durable and have excellent stability and resistance to wear and tear. Sono rivestimenti prefiniti ottenuti utilizzando carte (unicolori o stampate) impregnate e spalmate sul lato decorativo generalmente con resine melaminiche, che vengono applicati su un pannello di particelle di legno (supporto). Garantiscono una grande varietà di soluzioni estetiche, ottima stabilità e buone caratteristiche di resistenza all'usura e durata nel tempo.

Glass stone

Text *Testo*

The glass stone top is made of tempered glass with a surface layer of ceramic glaze, fired in an oven at a temperature of 800°C. This technology gives the material characteristics similar to those of ceramic-glass top: resistance to thermal shocks, no discoloration over time, water repellency, resistance to corrosion and scratches. It is easy to clean even when dirty or greasy. Il piano glass stone è realizzato in vetro temprato con uno strato superficiale di smalto ceramico, fissato in forno ad una temperatura di 800 °C. Questa tecnologia conferisce al materiale caratteristiche analoghe al piano in ceramica-vetro: resistenza agli sbalzi termici, assenza di scolorimento nel tempo, idrorepellente, resistenza alla corrosione e graffi. È facile da pulire anche in presenza di sporco e grasso.
